

Property Video Tours

Now available - all Costa del Sol areas...
Professionally produced Live Video Tours
- an exciting new way of promoting your
property:

In the present economic climate we offer a new and unique way to expose your property. Our videos are produced using a professional production crew with presenter. The video will be presented to you in either Flash or Quicktime formats for inclusion on your website. It can also form part of a DVD for mailing to your potential purchasers.

To guarantee maximum exposure we also offer the opportunity for it to be placed on the Destination Sotogrande and Sol Channel websites and with links to many other key sites with high visitor volumes.

We can cater for whatever requirements you may have - whether it be a single property - a new development - or you would like us to quote for a block booking.
