

## Property Video Tours

Now available - all Costa del Sol areas...  
Professionally produced Live Video Tours  
- an exciting new way of promoting your  
property rentals:

In the present economic climate we offer a new and unique way to expose your properties. Our videos are produced using a professional production crew with presenter. The video will be supplied to you in either Flash or Quicktime format for inclusion on your website. It can also form part of a DVD for mailing to your potential renters.

Just think - everyone in the world will be able to take a video tour of your properties from their computer. Showing it to it's best advantage - and once you have the video you will be able to use it year after year - A ONE-OFF COST!

We can cater for whatever requirements you may have - whether it be a single property - or you would like us to quote for a block booking rate for all your portfolio of rental properties...
